Shared Revenues - Budget Estimates

A preliminary estimate of shared revenues for each city and town for FY 2014-2015 is set forth in this report. We obtained the total dollar figures on which these early estimates are based from the Arizona Department of Transportation (ADOT) and the Arizona Department of Revenue (DOR). Subject to changes in these estimates and the governor’s budget, there may be a final report sent out in early May.

Population Figures for Shared Revenue Estimates

As directed by statute, the population used in distribution of state shared revenue for July 1, 2011 is the figure from the 2010 Census except for the Urban Revenue Sharing (State Shared Income Tax). Changes can only be made to these numbers in the case of an annexation that has been certified by the Census Bureau. For distribution of Urban Revenue Sharing, those cities and towns with populations fewer than 1,500 are automatically assumed to have 1,500 in population. The total population figures are as follows:

2010 Designated Population (TPT/HURF/VLT) – pop. for cities/towns	5,024,437
2010 Designated Population (URS)- pop. for cities/towns	5,030,191

Shared Revenue Estimates

The tables found within this report list the distribution of revenue from the vehicle license tax (VLT), highway user revenue fund (HURF) and the state sales and income taxes.

Vehicle License Tax (VLT) –Vehicle License Tax monies is approximately 6% higher compared with last year’s estimates.

Highway User Revenue Fund (HURF) - The estimate for highway user revenue to cities and towns increased almost 1% as well from last year’s HURF distribution. (The highway user revenue estimate does not include the 3 percent monies reserved for cities with populations over 300,000.) This fund may be subject to revision later in the year - we will send out revised estimates if we get any additional information.

State Sales Tax - The estimate for state shared sales tax is approximately 4.6% higher than the estimated amount contained in this report from last year. This fund may be subject to revision later in the year - we will send out revised estimates if we get any additional information.

State Income Tax - The estimate for state income tax is 8.5 percent higher than last year’s estimate. (This is the only one of the shared revenues that can be accurately forecast since it is based on collections from two years ago.)

The total estimated state shared revenues for cities and towns in the upcoming fiscal year, based on current state law, from each of the sources are as follows:

Vehicle License Tax	\$192,200,000
Highway User Revenue	\$311,799,000
State Sales Tax	\$454,000,000
State Income Tax	\$608,900,000

If there are any significant changes to any of these numbers, we will get revised estimates to you as soon as possible. If you have any questions, please give us a call.
